

Job Description

Full Stack Developer (.Net)

S1Data is a forward-thinking provider of rich product content data to the furniture, consumer electronics, and appliance industries. We deliver best-in-class data to our customers by working closely with vendors and manufacturers to ensure we have the most up-to-date and comprehensive data possible.

The developer will be assisting in the development and maintenance of various software products including our custom ecommerce engine, product data management site (PIM), client integrations, and our RESTful API.

Our Stack

.Net, .Net Core, C#, Service Stack, ASP.net MVC, MSSQL, PostgreSQL, React, jQuery

Required Experience

- 3 or more years' experience with .Net and/or .Net Core
- Competency with REACT, jQuery, and javascript in general
- Experience with the .Net MVC framework
- Familiarity with T-SQL or similar database scripting language
- Ability to create and consume RESTful APIs

Preferred Experience

- Knowledge of Bootstrap CSS and javascript libraries
- Dedication to creating modern UI/UX
- High level of competency with Excel, Word, and other MS Office software

The position will be 100% remote.

Compensation is commensurate with experience. Benefits include medical insurance, unlimited vacation time and sick days, and matched 401k contributions.
